

Product Data Enrichment Exercise

Before & After Examples Across Six Key Product Categories

This document presents a completed product data enrichment exercise demonstrating how raw manufacturer catalogue data and basic e-commerce listings are systematically transformed into structured, standardized, attribute-rich, and buyer-friendly product records ready for modern faceted navigation and automated search filtering.

Categories Covered	Laboratory Instruments, Analytical Equipment, Laboratory Consumables, Dispensing Equipment, and Personal Protective Equipment (PPE)
Examples Included	6 Detailed Before / After Product Comparisons with Full Attribute Schemas
Prepared For	Simon
Prepared By	AltiusNxt Technologies Pvt Ltd
Date	28 August 2026

TABLE OF PRODUCT COMPARISONS

Example 1	OHAUS STX Portable Balance	Laboratory Instruments — Weighing
Example 2	Motic AE2000 Inverted Microscope	Analytical Equipment — Microscopy
Example 3	Mettler Toledo DM40 Benchtop Density Meter	Analytical Instruments — Density & Refractometry
Example 4	LABCO Borosilicate Glass 3.3 Beaker, 250 mL	Laboratory Consumables — Glassware
Example 5	BRANDTECH Titrette Digital Bottle-Top Burette	Dispensing Equipment — Titration
Example 6	Ansell TouchNTuff Disposable Nitrile Gloves	Personal Protective Equipment (PPE)

CASE STUDY 01

OHAUS STX Portable Balance

LABORATORY INSTRUMENTS — WEIGHING SCALES & BALANCES

ORIGINAL PRODUCT LISTING (BEFORE)

The original listing gives the product name, manufacturer, image, price, stock status, and a general narrative description. Capabilities such as weighing function, touchscreen display, connectivity, portability, battery operation and typical applications are communicated only as unstructured narrative text.

ENRICHED PRODUCT RECORD (AFTER)

The enriched record adds brand, series, product type, model/part number, capacity (120 g), readability (0.001 g), repeatability (0.002 g), linearity, pan size, VGA touchscreen display size, calibration type, connectivity interfaces, power specs, battery life, stabilization time, weighing units, and UNSPSC classification.

KEY TRANSFORMATION: The balance moves from a basic generic page into a fully structured weighing-equipment record, enabling buyers to instantly compare capacity, readability, pan size, power specs, and communication ports.

EXAMPLE 1 ENRICHED RESULT

OHAUS STX Portable Balance — Normalized Specification Matrix

[illegible]

CASE STUDY 02

Motic AE2000 Inverted Microscope

ANALYTICAL EQUIPMENT — MICROSCOPY

ORIGINAL PRODUCT LISTING (BEFORE)

The page lists the product name, image, price and stock information alongside a narrative description covering ergonomic design, optical performance, illumination, stage configuration, focusing and typical use in clinical and educational settings without granular filters.

ENRICHED PRODUCT RECORD (AFTER)

The enriched specification structures optical system (CCIS), observation system (Trinocular Siedentopf), head tilt & rotation, eyepieces, quadruple nosepiece, objective magnifications, stage dimensions & inserts, ELWD condenser, focus mechanism, dual illumination, voltage, and UNSPSC codes.

KEY TRANSFORMATION: The listing transforms from a narrative-led page into a structured optical & mechanical specification record, empowering laboratory buyers to evaluate condenser type, working distance, objectives, and stage configurations at a glance.

The uniquely integrated feature Auto cut-off mode ("sleep mode") is focused on enhancing its performance during the rigors of daily use.

Designed for routine lab or clinical work, as well as research requirements in Pharmaceutical Laboratories or Universities, the AE2000 is more than capable of fulfilling the expectations of its users. Superb optical quality can be expected from a brand new optical series of both bright field and phase contrast lenses, following Motic's proven successful CCIS® Infinity Optical System.

CASE STUDY 03

Mettler Toledo DM40 Benchtop Density Meter

ANALYTICAL INSTRUMENTS — DENSITY & REFRACTOMETRY

ORIGINAL PRODUCT LISTING (BEFORE)

The page introduces the instrument's broad purpose (density, specific gravity) and mentions temperature control, measurement modules, and data transfer, but predominantly as high-level descriptive text without measurable technical criteria.

ENRICHED PRODUCT RECORD (AFTER)

The enriched record captures display type/size, measurement range (0.0000 to 3.0000 g/cm³), accuracy (0.0001 g/cm³), Peltier temperature control, automatic error detection, cycle speed (30s), minimum sample volume (1 mL), 30 built-in methods, FDA 21 CFR Part 11 compliance, and interface ports.

KEY TRANSFORMATION: The density meter becomes an application-driven analytical record, allowing technical procurement teams to filter by accuracy, sample volume requirements, compliance standards, and automated sampling options.

Request for quote

The METTLER TOLEDO density meters are the perfect solution wherever the density, specific gravity or related parameters of liquid samples need to be determined. The LiquiPhysics Excellence DM density meters can combine density and refractive index with cell modules. Moreover the systems can also be flexibly upgraded to measure pH, conductivity and color simultaneously.

Mettler Toledo DM40 Benchtop Density Meter — Normalized Specification Matrix

CASE STUDY 04

LABCO Borosilicate Glass 3.3 Beaker, 250 mL

LABORATORY CONSUMABLES — GLASSWARE

ORIGINAL PRODUCT LISTING (BEFORE)

The listing provides only basic product name, image, price, and a short generic blurb covering thermal resistance and white graduations, lacking standardized fields needed for faceted search or bulk ordering.

ENRICHED PRODUCT RECORD (AFTER)

The enriched record structures material grade (Borosilicate Glass 3.3), shape (Tall Form), capacity (250 mL), physical dimensions (60 mm dia x 120 mm height), graduation type, spout inclusion, marking area, autoclavability, ISO 3819/DIN 12331 compliance, and package quantity (10/pack).

KEY TRANSFORMATION: Even a simple consumable is structured into a filterable e-commerce record, allowing laboratory managers to compare dimensions, standard compliance, form factor, and packaging units accurately.

Product Description

LabCo Beaker Tall Form Boro 250 mL is a laboratory beaker manufactured from Borosilicate Glass 3.3, offering excellent thermal and chemical resistance for general laboratory applications. It features a tall-form cylindrical design with a pouring spout for clean and controlled liquid transfer, along with clear white enamel graduations for easy volume identification. The beaker is autoclavable and complies with ISO 3819 and DIN 12331 standards, making it suitable for laboratory liquid handling, mixing, and general purpose use.

- Complies with ISO3819 and DIN12331
- Manufactured from borosilicate glass 3.3
- Spout for clean pouring
- White enamel inscriptions

Specifications

Brand	LABCO
Product Type	Beaker
Material	Borosilicate Glass 3.3
Colour	Clear
Graduation Colour	White Enamel
Shape	Tall Form
Capacity	250 mL
Diameter	50 mm
Overall Height	120 mm
Graduation (Yes/No)	Yes
Spout (Yes/No)	Yes
Marking Area (Yes/No)	Yes
Autoclavable (Yes/No)	Yes
Standards Met	ISO3819, DIN12331
Application	Laboratory

CASE STUDY 05

BRANDTECH Titrette Digital Bottle-Top Burette

DISPENSING EQUIPMENT — TITRATION INSTRUMENTS

ORIGINAL PRODUCT LISTING (BEFORE)

The page gives the product title, image, price and a high-level overview highlighting smooth operation, battery power, and compact design, but omits vital dosing accuracy limits and chemical compatibility data.

ENRICHED PRODUCT RECORD (AFTER)

The enriched record structures nominal volume (25 mL), Class A precision, accuracy ($\pm 0.07\%$), display resolution ($1\ \mu\text{L}$), wetted materials (Borosilicate, PTFE, ETFE, PFA), GL 45 bottle threading, included adapters, operating limits (temp, vapor pressure, viscosity), and DIN EN ISO 8655-3 standards.

KEY TRANSFORMATION: The product transitions from a brief marketing description to an exhaustive technical record, allowing laboratory chemists to verify dosing precision, adapter compatibility, and reagent limits with total confidence.

Features:

- High accuracy-Precise titration within the error limits of Class A.
- Smooth, low force operation for sensitive, drop-wise titration.
- Compact design-Light and stable.
- Easy handling for switching between 'fill' and 'titrate'.
- Simple maintenance-Cleaning and part replacement right in the lab.
- PC interface (optional) Data transmission directly to the PC.

Product Description

Designed to be the best bottle top burette to meet clean & precise needs for glass burettes. In addition, it stands out for many features: a compact design, standard precision, an exchangeable dosing unit, and an optional PC interface. You can use the Titrette to fill fast, quickly and reliably, even with viscous liquids and independent of available power connections in the laboratory. In production, up to 100 bottles.

- The Titrette burette incorporates a simple and effective design for bottle attachment
- Separate buttons for ON/OFF, pause, and CLEAR to delete the display and select function
- Non-slip foot allows easy and accurate handling/positioning and the foot of the burette makes handling reliable and especially simple
- Operating temperature from 5°C to 40°C (down to 0°C in 10°C steps)
- Viscosity protection up to 100 cP
- Viscosity up to 100 mPa·s
- Offset: max. 2000 in 0.001 mm
- Resolution: 0.01 to 0.001

Specifications

Name	Titrette
Series	Titrette
Product Type	Digital Bottle Top Burette
Material Volume	25 mL
Interface Type	No
Pressure Class	Class A
Accuracy	±0.005% (V/V)
Coefficient of Variation	0.0005%
Display Resolution	1 µL
Disp. Size	33 µL
Material Material	Extruded Glass AD33.ETC/PFA/PE/PFTE/Polymers/other
Titration Method	Electrodeless by Direct Titration
Autotitration Function	No
Bottle Connection	ISO 45
Bottle Adapter Included	Yes, 1/2, 3/8, 1/4, 1/8, 1/16
Filling Tube Type	Telescopic Filling Tube
Filling Tube Length	175 to 230 mm
Recirculation Time	15 to 30 s
Operating Temperature Range	5 to 40°C
Viscosity Protection	Up to 100 cP
Viscosity	Up to 100 mPa·s
Operating Pressure	3000 mbar
Relative Humidity	20 to 95%
Power Source	Battery
Display Type	LED
Display Type	Digital LCD
Driver Software	Driver Software
Includes	Digital Bottle Top Burette Telescopic Filling Tube, Recirculation Tube, 1/2, 3/8, 1/4, 1/8, 1/16, 1/32, 1/64, 1/128, 1/256, 1/512, 1/1024, 1/2048, 1/4096, 1/8192, 1/16384, 1/32768, 1/65536, CASE STUDY 06

Ansell TouchNTuff Disposable Nitrile Gloves

PERSONAL PROTECTIVE EQUIPMENT (PPE) — HAND PROTECTION

ORIGINAL PRODUCT LISTING (BEFORE)

The listing provides only brand, basic title, image, price, and a descriptive blurb covering splash protection, comfort, and silicone-free design without standard compliance ratings or barrier specifications.

ENRICHED PRODUCT RECORD (AFTER)

The enriched record structures glove material (Nitrile), color, latex/ powder/silicone-free status, antistatic rating, cuff style, alpha/ numeric sizing (XL / 9.5-10), palm/finger thickness, EN 388 mechanical rating, EN ISO 374 Type B chemical permeation codes, AQL 1.5, and Category III PPE compliance.

KEY TRANSFORMATION: The product becomes an enterprise-grade PPE specification, enabling safety officers to verify EN/ISO chemical breakthrough ratings, mechanical tear standards, and medical/cleanroom certifications directly.

Ansell TouchNTuff Disposable Nitrile Gloves — Normalized Specification Matrix

OVERALL BENEFITS DEMONSTRATED ACROSS CATEGORIES

Across all six categories, this enrichment exercise proves how diverse scientific products can be harmonized into a standardized data architecture without sacrificing critical category-specific technical depth.

- **Standardized Titles & Brand Normalization:** Consistent naming conventions eliminate ambiguity and improve search relevancy.
- **Structured Technical Attribute Schemas:** Normalizes units of measure (capacity, dimensions, speed, accuracy) for exact faceted filtering.
- **Regulatory & Compliance Readiness:** Surfaces ISO, DIN, FDA 21 CFR Part 11, and CE/UKCA standards for institutional procurement.
- **Integrated Technical Documentation:** Surfacing user manuals, brochures, SDS, and calibration certificates directly on the product record.
- **Universal UNSPSC Classification:** Enhances enterprise catalog integration, B2B punch-out catalogs, and e-procurement systems.
- **Cross-Sell & Product Comparability:** Enables automated similar-item matrices and related-accessory recommendations.

STRATEGIC BUSINESS VALUE & ROI

For Customers & Procurement Teams:

- Drastically reduces search and decision time.
- Guarantees technical fit and compatibility before purchase.
- Provides instant access to compliance certificates and manuals.

For E-Commerce & Commercial Growth:

- Higher organic search ranking (SEO) via rich attribute indexing.
- Reduced product return rates caused by specification misunderstandings.
- Higher average order value through automated related-item cross-selling.

NEXT STEPS & SCALING STRATEGY

We invite you to a **15-minute walkthrough** to review these 6 enriched records, examine the taxonomy rules and attribute hierarchy, and discuss scaling this automated enrichment workflow across your entire multi-category product catalog.
